

Zone Safety Training

Fire Warden

This course provides fire safety training for specific staff members who will be responsible for reducing fire risks, dealing with fires if appropriate and coordinate fire evacuation plans to safely evacuate staff and public in the event of fire.

This course is delivered on site and will include live fire extinguisher training using our extinguishers on a small contained fire pan.

Who is the course for?

This course is for employees identified as having a supervisory role in the event of fire, and will help employers conform to their obligations under the new Regulatory Reform (Fire Safety) Order 2005.

Number of candidates

In order to ensure everyone can participate, we recommend 20/25 per course

Duration of Course

3 hours.

Cost

In Gloucestershire £400.

Outside Gloucestershire please contact us.
